

In reference to your letter of 1-12-11 on our 12 day pre-general report, the opening cash balance of \$3182 was from unidentified funds collected from donation jars, raffles and other miscellaneous sources. All the receipts over \$200 that we could identified were included in the report. Part of the problem was that before we registered with the FEC we didn't know the record keeping requirements. We have corrected that now and will do our best to complete the reports properly
